376 Wallbridge-Loyalist Road

LETTER OF INTENTION

Respected team, I am writing to express my keen interest in the role of President within the Student Government of Loyalist College. With a passion for leadership, a track record of active involvement in community service projects, and a wealth of relevant experiences, I am confident in my ability to contribute meaningfully to the enhancement of our campus community.

Being a corporate professional for the last 10 years and as a team leader for the last 5 years, my exposures and expertise has been marked by diverse experiences and have prepared me for this leadership position. Also, as a current student at the Loyalist College, I have gained valuable insights into the dynamics of our institution's governance structure as I nominated for previous elections as well and worked with people who are already working in Student government. I am always interested in projects which bring attention and betterment to student lives. Through serving on various committees and actively participating in decision-making processes for the past 10 years, I have honed my ability to collaborate effectively with peers, faculty, and administrators to address key issues facing any organization. In my class as well, I always keep a front to bring out the problems to teachers my fellow classmates face.

My interest in the position of President stems from a desire to advocate for positive change and foster a campus environment that prioritizes student welfare and engagement. If elected, I am committed to implementing initiatives that promote student empowerment, enhance campus diversity and inclusion efforts, and amplify student voices in institutional decision-making processes hence making student lives at ease, better, encouraged and inspired.

Furthermore, I firmly believe that my involvement in Student Government will serve as a catalyst for my personal and professional growth. By assuming a leadership role, I anticipate gaining invaluable experience in strategic planning, consensus-building, and conflict resolution—skills that are indispensable for my future career aspirations. Moreover, I view this opportunity as a platform to cultivate meaningful relationships with fellow student leaders and mentors, which will undoubtedly enrich my collegiate experience and broaden my professional network.

Additionally, I always had a passion for leadership as a better leader can make a difference. In terms of my leadership experience, I have previously served as a team lead in my last company "Ciena". In this capacity, I spearheaded various projects, demonstrating my ability to inspire and mobilize team members towards a common goal. Additionally, I am actively participating in several community service projects as well. For an example I have founded an NGO name "Pehcahan The Street School" 9 years back which is focused on providing educations to unprivileged children residing in the slums of Delhi-NCR. I started it with 5 kids and a couple of friends and now we are having more than 3000 kids and 300+ interns coming to our centers teaching those kids. I have been handling its events, expansions, and various collaborations with other serving socialists.

In conclusion, I am excited about the prospect of serving as President of the Student Government and am fully committed to leveraging my skills, experiences, and passion for positive change to propel our campus community forward. Thank you for considering my candidacy, and I look forward to the opportunity to contribute to the betterment of our esteemed institution.
