

Letter of intention

Vasilii Grigorev – Letter of intention to become Student Government President

My name is Vasilii Grigorev (student number: 500235802). I'm an international student in the Civil Engineering Technician program, and I am glad to have this opportunity to introduce myself and share my ideas on why I believe that such a challenging duty as being the President of the college aligns with my life aspirations. It's a wonderful chance for me to make a mark in the small yet proud history of the institution, and an excellent opportunity for me to open new avenues for my personal and career growth.

I'm 20 years old. I come from Russia (Moscow), from a family of very intelligent, talented, and kind-hearted people with a strong commitment to moral principles. From childhood, my father had been instilling in me the belief that honesty and virtue are paramount values for a person, emphasizing that it doesn't matter what others may think of you; what truly matters is the kindness you demonstrate through your actions.

However, unfortunately, individuals with the same character as my parents are few among the governing positions in my country, and that's why I believe the levels of corruption and injustice are on the rise. Therefore, as someone who carries on the traditions of my family, I see it as my calling to serve and assist others in bringing more justice and kindness to the world. I believe that assuming the responsible position of President of the college where I am currently studying will not only allow me to positively contribute to its warm environment but also further develop my existing leadership qualities, which undoubtedly will further my career goals.

MY STRENGTHS & SKILLS:

- A very motivated, disciplined, cheerful, responsible, polite, and open-minded person
- Have the ability to create a warm and comfortable social environment around myself, thanks to my strong body language and confident speech, which I've been developing while attending the international Toastmasters club in Istanbul, Turkey.
- Dedicated to planning, order, and discipline.
- Always delighted to meet and get to know new people.
- Enjoy expressing my opinions and ideas in public.
- Have significant experience traveling all over the world and living in different countries.
- Thanks to this, I have a rich experience of meeting and getting along with a variety of people from different countries and cultural backgrounds.
- Always eager to explore new horizons and learn new things quickly.
- Speak English, Russian and German (B1 level).

- Look forward to new challenges because only in overcoming these obstacles do I see the opportunity for growth.
- Live on campus and therefore I'm involved in college life, being available for any kind of activity.
- Have the qualities of initiative and spontaneity

I'm aware that the Student Government apparatus is a complex and sophisticated system, which requires each worker's constant attention, the ability to coordinate events and meetings, to make ambitious strategic plans, and to always remain accessible. Working in the Student Government is a challenging task that demands an extremely high level of responsibility and dedication from an individual. However, it is within these efforts that I see an opportunity for myself to positively impact the world around me and to grow personally.
